### ABOUT ME

Web Developer with over 4 years of experience and a strong commitment to continuous learning. I enjoy collaborating with others, and I am dedicated to delivering high-quality work, always focusing to serve the needs of the team and users

### PROFESSIONAL EXPERIENCE

#### Development Engineer

Academia Global - 2021 - To Date

I am responsible for developing and maintaining a system with microservices. I integrate and deploy updates from other team members, ensuring an agile and efficient implementation.

- I created REST API architecture and front-end application
- Implemented Docker, Jenkins, and GitHub for continuous deployments on EC2.
- I developed protected routes using guards.
- I integrated GRPC and TCP in key microservices.
- I Used Tailwind CSS to design responsive and highly customizable user interfaces, optimizing workflow and improving design consistency..

#### Freelance Frontend Developer

Wedoox - April 2024 - June 2024

Creation of CRM module.

- I configured CRM application and I created a module in Next.js.
- I integrated and developed with Redux for global state management.
- I implemented styles and components using Tailwind CSS and NextUI.

#### Freelance Full Stack Developer

El Girasol - March 2022 - October 2022

I participated in both front-end and back-end development of the application, implementing key features in both areas. I also designed and created the database, ensuring proper structuring and query optimization.

- I implemented secure and efficient services and endpoints for communication between front-end and back-end.
- I designed the database structure, ensuring referential integrity and optimization in queries.
- I created stored procedures used in generating complex reports, improving performance in handling large volumes of data.
- I developed a web application with advanced routing and lazy loading, optimizing user experience and overall performance
